Summary

Software Engineer with over 1 year of experience designing and building secure, user-focused interfaces using React and Ember. Skilled in integrating REST APIs, applying WCAG 2.1 AA accessibility standards, and developing reusable components to streamline development. Collaborates closely with design and product teams to shape feature decisions and deliver intuitive web applications.

Skills

- **Frontend**: React.js framework, JavaScript, TypeScript fundamentals, Next.js basics, Ember.js-, HTML, CSS, Redux, Web Development
- **Backend & DB**: Node.js basics, REST APIs, API integration, PostgreSQL, Java
- **Tools & Standards**: Agile methodologies, Accessibility standards (WCAG 2.1 AA)

Experience

Metacube Software (Client: Jamf, NASDAQ-listed) **Mar 2025 - Present**
Software Engineer *Jaipur, India*

- Developed reusable UI components and managed state with Redux using React.js, Ember.js, JavaScript, HTML, and CSS, improving development efficiency by ~30%.
- Integrated REST APIs and third-party libraries to ensure secure, reliable authentication workflows.
- Built scalable authentication systems (OTP, TOTP, password flows) integrated with backend services.
- Enhanced accessibility (WCAG 2.1 AA) to improve usability across authentication flows.
- Identified critical edge cases pre-release, minimizing production defects by ~20%.
- Collaborated in Agile/Scrum teams to deliver features for an enterprise-scale identity platform.
- Collaborated with design and product teams to develop user-focused features and contribute to product decisions on reasonable development timelines.

AntiAi **Nov 2024 - Jan 2025**
Front End Developer *Jaipur, India*

- Developed responsive user interfaces with HTML, CSS, and ReactJS to improve accessibility across devices.
- Created multiple reusable components with Redux to optimize application performance and enhance user experience.

Education

University of Engineering And Management **May 2025**
B.Tech, Computer Science *Jaipur*

- **Achievements:** Led college basketball team, demonstrating resilience, discipline, and ability to perform under pressure., Solved 200+ DSA problems and built frontend projects to expand skillset.

Project

Freelance Marketplace

- Developed responsive UI with Next.js (React) and CSS, integrating PostgreSQL for backend data storage
- Implemented secure authentication using JWT, integrated third-party REST APIs, and enforced OWASP best practices for vulnerability prevention
- Designed modular microservices architecture with caching layers to optimize performance and ensure scalability
- Managed application state with Redux and Context API to maintain testable, maintainable code for complex data flows
